

IVSS 2.0 - Gear Up For AI

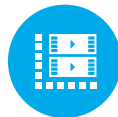

Dahua Intelligent Video Surveillance Server

Face Recognition

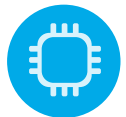

Perimeter Protection

Video Metadata

Intuitive Interface

Scalable GPU

Dahua Intelligent Video Surveillance Server

IVSS 2.0 (IVSS7000 - I series) is the upgraded series of Dahua Intelligent Video Surveillance Server family which is powered by the latest deep- learning algorithm and scalable GPU. It performs more powerful AI functions, such as face recognition, perimeter protection, metadata and etc. In addition, the brand new GUI brings familiar and user-friendly experience.

AI Features

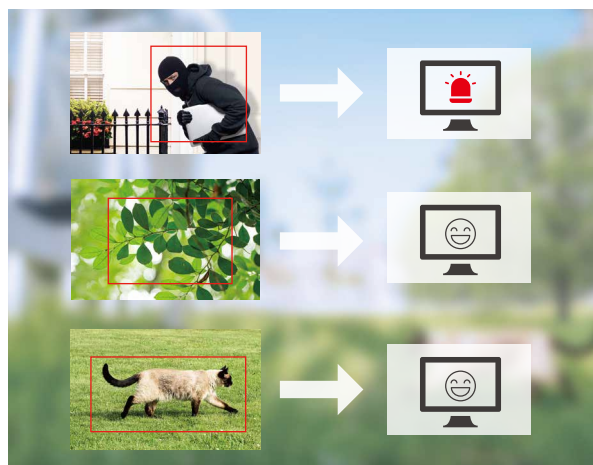

Face Recognition

Real - time crosscheck to find out the face by target features in regular / stranger mode. Also with face searching by uploading face images.

Perimeter Protection

Accurately differentiate human / vehicle and effectively filter out false alarms caused by animals, rustling leaves, bright lights, etc.

Video Metadata

Quick search by metadata of human face / human body / motor vehicle / non-motor vehicle.

Product Selection

IVSS7008-11
IVSS7008-21

IVSS7016(DR)-41
IVSS7016((DR)-81

IVSS7024(DR)-81
IVSS7024(DR)-161
